EDUCATION

Maharaja Agrasen Institute of technology , Indraprastha University

New Delhi, India

Bachelor of Technology in Computer Science

Nov. 2022 – current(2nd yr)

CERTIFICATIONS

Data Structures and Algorithms Course by Abdul Bari (cpp) from udemy

Jan.2023 - Aug.2023

Leetcode-100+ day streak

Sept. 2023 – current

PROJECTS

URL-Shortener | *MongoDB,Express,React,Node,Tailwind*

August 2023 – Present

- Developed a full-stack web application using Node serving CRUD operations with React as the frontend
- implemented authentication system for users to log in and Sign-up
- implemented MongoDB queries to form tables for each user
- Developed a separate admin page to monitor data

E-commerce Website | *Next, Typescript, Tailwind, Prisma ORM, Mongo DB,vercel*

August 2023 – Present

- Developed a responsive E-commerce application using Next and typescript using the next js app-router
- developed user login system for users to log in using NextAuth
- implemented anonymous carts and pagination, features essential to an e-commerce store
- Developed an interactive user interface using Tailwind CSS and daisy UI
- Deployed the application on vercel

Chatting Application | *Express,React, Node,Tailwind,Netlify*

August 2023 – Present

- • Developed a web application using React as the frontend using the chat-engine API with Node
- developed user login page for users to log in using username
- implemented the chat engine server queries to perform basic chat functions by calling API
- Developed an interactive user interface using the react-pretty-engine module
- Deployed the application on netlify

To-do list | *React,Node,Javascript,Tailwind,Netlify*

july 2023 – august 2023

- implemented React use-State functionality to update the website after every input
- developed a user-friendly user interface using Tailwind-css
- developed appropriate buttons and their functionality for the app
- deployed app on Netlify for the larger audience to experience

TECHNICAL SKILLS

Languages: JavaScript,Typescript,Java, Python, C/C++, SQL (Postgres), HTML/CSS,

Frameworks: React, Node,Express,Next, Flask, Bootstrap, WordPress, Material-UI, Tailwind, FastAPI

Developer Tools: Git, Docker, Google Cloud Platform, Visual Studio, PyCharm, IntelliJ, Eclipse, Google Colab

Libraries: pandas, NumPy, Matplotlib
